

JEBEL Workshop, Saudi Arabia, 2009

24 Oct. (Saturday) - JEBEL presentations

Part One, in Jeddah

0830-0845 Opening remarks

0845-0900 P. Johnson, The Najd paradigm: questions, problems, and regional impact

0900-0915 C. Passchier, Kinematics of shear zones in Saudi Arabia and Egypt - a first impression

0915-0930 A. Andresen et al., The Eastern Desert Shear Zone: Age and tectonic significance

0930-0945 P. Johnson, An introduction to the Midyan terrane

0945-1000 W. Kozdroj, New SIMs zircon data from the Midyan Terrane and implications for Neoproterozoic lithostratigraphy and geotectonic evolution

1000: Depart Jeddah for Al Wajh by landcruiser; lunch en route in Yanbu; arrive Al Wajh about 1800

Part Two, in Al Wajh

1. K. Ali, Geochemistry, Geochronology, Sr-Nd-Hf isotopes of El-Shalul Pluton, central Eastern Desert of Egypt

2. V. Pease, Revised understanding of the Dubur intrusive complex

3. A. Andresen, New U-Pb ages and Hf-isotope data on selected plutons from the Central Eastern Desert

4. R.J. Stern, U-Pb results from Zaghara diamictite, Sinai

5. G. Jarrar, New U-Pb geochronology from south Jordan

6. M. Whitehouse, New geochronology from Sokotra.

7. I. Stewart, Cenozoic faulting in NW Saudi Arabia

Poster K. Ali, Ghawjah metavolcanics and Sawawin BIF

JEBEL Business meeting

2010 JEBEL field activities and budget

2010 JEBEL Workshop:

9th International Conference on Geochemistry, 13- 14 Oct. 2010

Geology Department

Alexandria University, Egypt

2010 JEBEL International Student Excursion to CED

To follow ICG
